NASA SPACE APPS CHALLENGE

2026 NASA SPACE APPS CHALLENGE

REGISTER TODAY

On **November 14-15, 2026,** NASA and **17** Space Agency Partners invite scientists, technologists, and space science enthusiasts to participate in the **2026 NASA Space Apps Challenge**. Over the course of two days, teams will develop projects that address challenges using NASA's open data and space-based data from Space Agency Partners.

With this year's theme **the Next Frontier:**

- Develop tools that benefit humanity and contribute to the science and technology propelling us to the Moon, Mars, and beyond
- Be a leader in your city's STEM communities
- Use NASA's open data to address the most pressing challenges in Earth and space exploration to spark innovation

The **2026 Space Agency Partners** include the **Angola National Space Programme Management Office; Argentina's National Space Activities Commission; Bahrain Space Agency; Brazilian Space Agency; Canadian Space Agency; European Space Agency; Indian Space Research Organization; Italian Space Agency; Japan Aerospace Exploration Agency; Korea AeroSpace Administration; Nigeria's National Space Research and Development Agency; Paraguayan Space Agency; Senegalese Space Study Agency; Spanish Space Agency; Turkish Space Agency; UAE's Mohammed Bin Rashid Space Centre; and the UK Space Agency.**
